

SEARCHING THE AIRA REPOSITORY

There are many ways to search and filter within AIRA's repository. Below is a quick overview to help you get started.

1

Enter **SEARCH WORD(S)** for results with keyword matches.

The screenshot shows the AIRA Repository search interface. At the top is a search bar with the text "Search the Repository" and a magnifying glass icon. Below the search bar are four sections of filters:

- RESOURCE TOPICS:** A list of topics including "AIRA Products & Activities", "IIS Data", "Major IIS Topics", "Open Source", "Stakeholders & Collaborations", and "Technical".
- RESOURCE TYPES:** A collection of buttons for different resource types: "Documents", "External Links", "Infographics", "Information Requests", "National Meeting Presentations", "Presentations", "Published Standards", "Videos", and "Webinars".
- FILTER BY YEAR:** A row of buttons for years: "2017", "2016", "2015", "2014", and "Past Years" with a dropdown arrow.

2

Select a **RESOURCE TOPIC** or **SUB-TOPIC** to display all resources tagged as that topic/sub-topic.

- Note: a resource may be listed under more than one topic.
- Only one topic or sub-topic can be selected at a time.

3

Select a **RESOURCE TYPE** to display all resources tagged as that type.

- Multiple resource types can be selected. Resources matching one type *or* another type will display.
- **RESOURCE TYPE** can be used to refine a search or to refine results after filtering by topic/sub-topic.

4

Select a **RESOURCE YEAR** to display all resources published in that year.

- Multiple years can be selected. Resources matching one year *or* another year will display.
- **RESOURCE YEAR** can be used to refine results after filtering by topic/sub-topic.

In this example, the topic *AIRA Products & Activities* is selected along with the year *2017*. These results would show resources matching the topic AND the year selected.

The header will display all search criteria applied as well as the option to **CLEAR ALL FILTERS**.

TOPIC: AIRA PRODUCTS & ACTIVITIES
YEAR: 2017
