# *Learning Objectives*

- Understand challenges facing users at schools and child cares using the immunization registry.

- Learn about solutions in Colorado to overcome challenges and increase immunization registry use.

# Overview

- Colorado Immunization Information System (CIIS)

- Challenges

- Functionality for Schools and Child Cares

- CIIS Enhancements

- Partnerships

# Colorado Immunization Information System (CIIS)

- CIIS became a web-based registry in 2001.

- 2007 became a life long registry.

- 2011 new CIIS application went live including participation from staff at schools and child cares.

- July 1, 2011 School nurses allowed to enter immunization and demographic information into CIIS.

**Approximate CIIS Participation:**

- 90% of public school districts and 11% private schools.
- 5% of licensed child care centers.
- 72% of Head Start facilities.

COLORADO

# *Immunization Legislation*

In May 2014 the Colorado General Assembly passed House Bill 14-1288
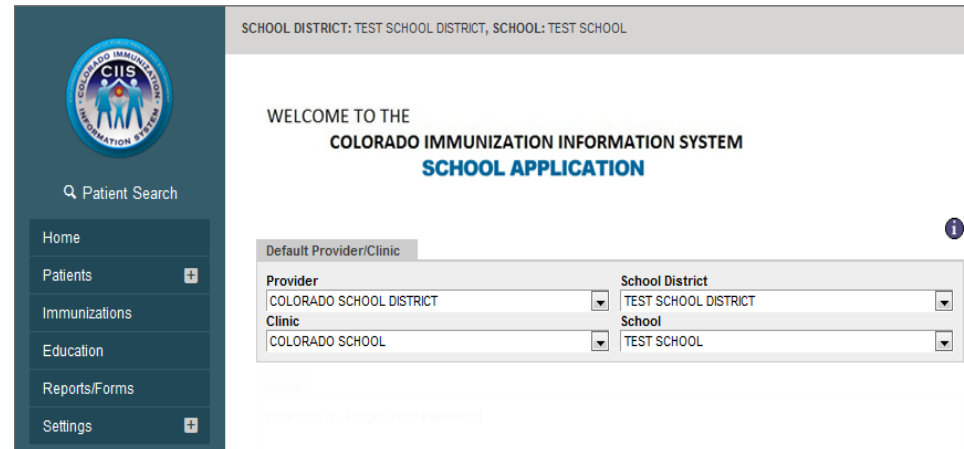

<u>Requirements as July 1, 2014:</u>

- Schools/child cares must make immunization and exemption rates publicly available, upon request.

- Colorado Board of Health (BOH) to make rules regarding:
    - Frequency of submitting immunization exemption forms
        - Child cares: non-medical immunization exemption forms would be submitted following the ACIP schedule
        - K-12th grade: non-medical immunization exemption forms would be submitted during annual enrollment/registration.
    - Submission of rates to CDPHE annually.

- CIIS Enhancements

- Partnerships

COLORADO

# Functionality for Schools and Child Cares

- CIIS has web application specific for school users.

- School nurses can add or update information.

- Child cares and Head Starts have access to view information only.

- CIIS Modules

  - Patients
    - Demographic
    - Notes
    - Precautions/Contraindications

  - Immunizations
    - Historical immunizations (nurses)

  - Education
    - Student enrollment in CIIS

  - Reports/Forms
  - Settings

COLORADO

# *Functionality for Schools and Child Cares*

## Exemptions

- Schools can enter immunization exemptions into CIIS under the *Notes* section.

# *Functionality for Schools and Child Cares*

## Education Module

- Both schools and child cares can manually enter the facility the child attends in CIIS.

## Education

# CIIS Enhancements

**Exemption Module**
- Exemptions easier to enter and more easily accessible.

- CDPHE or school staff will enter exemptions into system from paper or online form.

**Exemption Report**
- List students with exemption type and date claimed.

- Aggregate numbers on exemption types.

- Information on valid exemptions and flag students that need to complete new exemption form.

COLORADO

# CIIS Enhancements

**Student Roster Upload**

- Upload a spreadsheet of all students

    - Return spreadsheet with all immunizations documented for students in registry.

        - Allows schools to use information from CIIS to update their own systems.
        - Enroll all students with school/school district or child care in CIIS.

# *Overview*

- Functionality for Schools and Child Cares

- CIIS Enhancements

- Partnerships

COLORADO

# *Partnerships*

From HB 14-1288, CDPHE must work with other state departments to develop joint immunization data collection and data sharing policies

Through legislation and necessity, new relationships have been formed.

- Colorado Department of Education
  - Family Educational Rights and Privacy Act (FERPA) Guidance
  - Student directory information
  - Supporting training efforts to meet HB 14-1288 requirements

- Colorado Department of Human Services
  - Outreach and education with licensing

# *Conclusion*

There are many challenges that face child cares and schools from accessing and using the immunization registry. Colorado has focused on solutions to these issues to increase the usage and effectiveness of the registry and improve data.
