

Welcome to the AIRA National Meeting

October 7-9, 2013

Diana Herrero, MS

Interim Immunization Section Director

Colorado Department of Public Health and Environment

Did you know that Colorado...

Colorado is the only state in history, to turn down the Olympics

Has the longest continuous street in the U.S.

Has the world's largest natural hot springs

Held the world's first rodeo in 1869

Has the most microbreweries per capita in the U.S.

Contains 75% of land area in the U.S. with altitude >10,000 ft

Colorado Immunization Information System (CIIS) Notable 2013 Accomplishments

HIE Interface Implementation

- Unilateral HL7 batch file through CORHIO
- Two years in the making

Interagency Collaboration

- Newborn Hearing and Metabolic Screening Programs
- Women, Infants, Children Program
- Office of Emergency Preparedness and Response

Indian Health Services Interface

- Marks first time IHS has submitted data to CIIS
- Lays the groundwork for bidirectional exchange

CIIS Studies and Research

In Collaboration with University of Colorado- Denver

2010-
2011

- A National Institutes of Health funded randomized controlled comparative effectiveness trial that compared a centralized reminder/recall approach with a practice-based reminder/recall intervention in 14 Colorado counties for infants and toddlers.

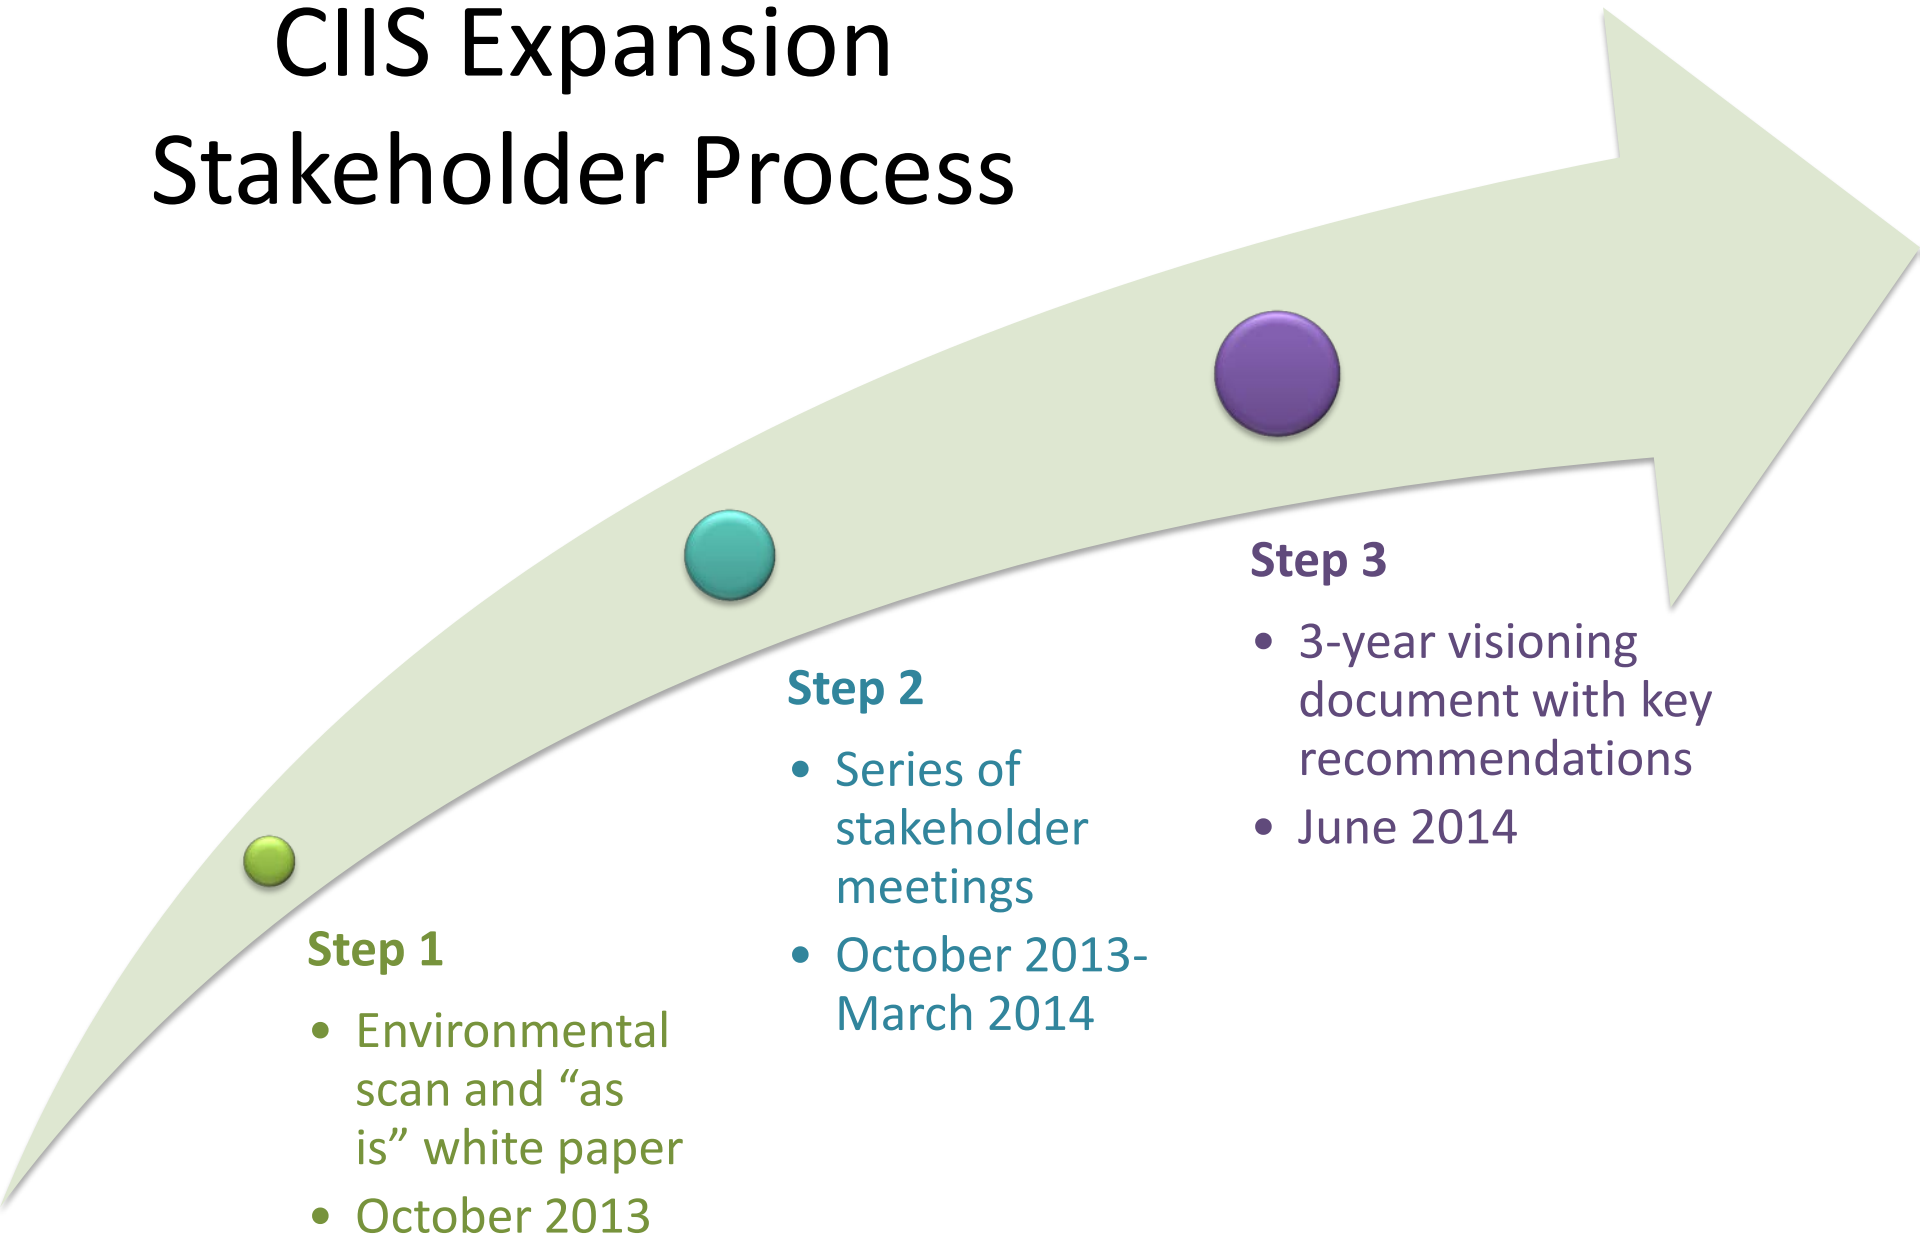

2011-
2014

- A group randomized trial at the county level comparing *collaborative* centralized reminder/recall and practice-based reminder/recall for 19-35 month olds in 16 Colorado counties.

2013-
2018

- Affordable Care Organization/Public Health Collaborative Preventive Care Delivery to Priority Populations – this project will extend centralized reminder/recall to adolescents and adults within ACOs.

CIIS Expansion Stakeholder Process

Senate Bill 13-222 (SB 222)

Enables CDPHE to establish a vaccine purchase system

Creates an immunization fund for the purpose of purchasing vaccines, supporting users of the immunization tracking system, and other immunization activities

Authorizes CDPHE to convene a task force to examine options for maximizing federal vaccine funds and improving statewide purchase, distribution and delivery of vaccines to insured, underinsured, and uninsured individuals

Permits CDPHE to purchase recommended vaccines through a vaccine purchasing system, if such a system is developed

Personal Belief Exemption (PBE)

Required education through provider (licensed to give immunizations) / public health counseling or online computer-based training (CBT) prior to claiming a PBE

CDPHE would publicly report immunization and exemption rates by school and childcare center

AIRA Agenda: CDPHE Sessions

10/7

Improving Data Validation
Performance (Cripple Creek 2)

10/8

Building a Sustainable Path Together:
Immunization Reporting through HIEs
(Cripple Creek 2)

10/8

Colorado IIS (CIIS) Training Strategies
for Reminder/Recall (Cripple Creek 1)

10/9

Using Our Power for Good:
Colorado's Transition to an ExIS State
(Crestone B)

Thank You For Attending...

Enjoy the Meeting!
