

Creating a Path Forward for IIS Sustainability

2018 AIRA National Meeting – Salt Lake City, Utah

Amanda (Mandy) Harris
IIS Manager
Nevada Department of Health

Bonnie Davis
IIS Manager
Alabama Department of Health

Quan Le
IIS Manager
Louisiana Department of Health

Claire Hannon
Director
Association of Immunization Managers

Jan Hicks-Thomson
Public Health Analyst
Centers for Disease Control and Prevention

How it works ...

- We'll introduce a topic.
- You'll get 5 minutes to discuss the topic with your table
 - Try to divide the time equally so you can each share.
- After 5 minutes, we'll ring the bell and ½ of the group will rotate to a different table. We'll repeat the process twice.
- Then we'll spend 5 minutes having each group report out about key observations.
- Then we'll move to the next topic

- Note taker
- Facilitator

Making a Good Thing Better

Examples

- Decreasing the amount of time, paper, and people involved in a business process like AFIX or provider enrollment.
- Decreasing the time and resources needed for IIS training.

Discussion Questions

- Describe business process improvement efforts in your program.
- What kinds of support (staff, training, facilitation, etc.) and tools do you have for these activities?
- What support or tools would be helpful?

Sharing is Caring

Examples

- Use of SmartyStreets for address cleansing.
- Use CDC CDSi Logic or Vaccine Code Set Management Service (VCSMS).
- Partnerships with other states on joint development efforts.
- Templates, guides, white papers, training materials, etc.

Discussion Questions

- What shared services are you aware of or participating in?
- What's worked well and what hasn't worked so well?
- What other shared services (topics or tools) would be helpful for Immunization Programs?

- ## Discussion Questions

-

Next Steps:

What kinds of guidance, support or tools would you prioritize for development by CDC, AIRA, AIM or other partners?
