

Version 2.0

Project MIROW Common Vocabulary

Version 2.0

Date September 2022

Description Terms approved as of August 2022.

Note: The Advanced Report and Domain Diagrams in can provide context for terms and be helpful to illustrate vocabulary group concepts and other aspects. The Simple Report presents just the term and definition.

Terms

Term	Definition
Action Code	a value submitted on a <u>vaccination event submission</u> (via the <u>HL7</u> message) that indicates the desired action to be taken on a <u>vaccination event</u>
Address	the place where a <u>party</u> is located or may be reached
Address Type	a kind of <u>address</u> whether it is a physical or mailing <u>address</u>
Administered/ Historical Indicator	the type of a <u>submission</u> based on whether submitted by the <u>vaccinating organization</u> ("administered") or by a third <u>party</u> ("historical")
Administers Vaccines	an indicator of whether or not a <u>provider organization administers</u> <u>vaccines</u>
Alternate Patient ID	a data element of an <u>alternate patient id group</u> that is a unique identifier for a <u>patient</u>
Alternate Patient ID Assigning Authority ID	a data element of an <u>alternate patient id group</u> that identifies the <u>organization</u> that assigned the <u>alternate patient id</u>
Alternate Patient ID Group	a set of data elements assigned to a <u>patient</u> by an <u>organization</u> other than an <u>IIS</u> to uniquely identify a <u>patient</u>
Alternate Patient ID Type	a data element of an <u>alternate patient id group</u> that identifies the kind of <u>alternate patient ID</u> that is assigned
Alternate Vaccination Event ID	a data group assigned to a <u>vaccination event</u> that includes a unique combination of <u>vaccination event</u> id and the <u>IIS-AO</u> that assigned the <u>vaccination event</u> id
Alternative Process (Workaround)	a different way of doing something for a short period of time
Antigen	a foreign (non-self) substance found in the body that produces an immune response
Assessment Report	an account of the degree to which a <u>cohort</u> is immunized according to current recommendations
Balance	the number of <u>vaccines</u> currently on hand for an <u>inventory item</u>

Term	Definition
Base Record	an <u>existing record</u> that is updated from another record during the consolidation process
Birth Certificate Number	a registration number for an official document of a <u>patient</u> 's date and place of birth and parentage
Birth Facility	a physical location where a <u>patient</u> is born
Borrowing	the use of a <u>vaccine</u> during a <u>vaccination event</u> that is taken from stock that does not correspond to the <u>patient</u> 's dose level eligibility
Business Continuity	the strategic and tactical capability of the <u>organization</u> to plan for and respond to <u>incidents</u> and business <u>disruptions</u> to continue business operations at an acceptable predefined level
Business Continuity Management System (BCMS)	a part of an overall management system that establishes, implements, operates, monitors, reviews, maintains and improves business continuity
Business Continuity Plan	the documented procedures that guide <u>organizations</u> to mitigate the impact of a <u>disruption</u> and to respond, recover, resume and restore to a pre-defined level of operation following <u>disruption</u>
Business Function	a description of work that is performed to accomplish a business unit's responsibility
Business Impact Analysis	the process of analyzing <u>business functions</u> and the effect that a <u>disruption</u> might have upon them
Carrier/Tracking Number	an identifier used to facilitate locating a shipment
Cohort	a group of people who share a common characteristic such as age
Combination Vaccine Dose	a combination of multiple <u>vaccine types</u> into a single <u>vaccine dose</u>
Communication	a process by which information is exchanged between individuals through a common system of symbols, signs, or behavior
Confidence Level	an aggregated degree of trust regarding the information contained in a <u>demographic record</u> or <u>vaccination event record</u>

Term	Definition
Consolidated Demographic Record	a <u>demographic record</u> that combines information available from one or more sources
Consolidated Patient Record	a combination of a <u>consolidated demographic record</u> and zero or more <u>consolidated vaccination event records</u> for that <u>patient</u>
Consolidated Record	a general term used to refer to both <u>consolidated demographic</u> <u>records</u> and <u>consolidated vaccination event records</u>
Consolidated Vaccination Event Record	a <u>vaccination event record</u> that combines information available from one or more sources for a single <u>vaccination event</u>
Contact Method	a manner in which to contact a <u>patient</u>
Contact Method Primary Indicator	an indicator to denote the primary <u>contact method</u> for a <u>patient</u>
Contact Method Type	the mode of <u>communication</u> that will be used to contact a <u>patient</u>
Continuity Option	an alternative course of action, such as using an <u>alternative</u> <u>process</u> or <u>relocation</u> , for implementing a <u>business function</u> due to a <u>disruption</u>
CPT Code	a numerical string identifying a billable service that is associated with the procedure used when administering a <u>vaccine</u>
CVX Code	a numerical identifier used to identify a <u>vaccine type</u>
Data Consumer	an <u>IIS-AO</u> that has access to <u>patient immunization history</u>
Data Enterer	a <u>person</u> who works for a <u>recording organization</u> and enters <u>submission</u> data
Data Quality	the degree to which data meets requirements
Data Quality Assurance (DQA)	the planning, implementation and control activities that apply quality management techniques to data, in <u>order</u> to assure it is fit for consumption and meets the needs of <u>data consumers</u>
Data Source Type	the category of the <u>submitter</u> of the record containing the data element/data group
Date of Birth (DOB)	the date of the <u>patient</u> 's birth

Term	Definition
Date of Death (DOD)	the date of the <u>patient</u> 's death
Demographic Data Element	a part of a <u>demographic record</u>
Demographic Data Group	a logical grouping of <u>demographic data elements</u>
Demographic Record	a collection of <u>demographic data elements</u> pertaining to a <u>patient</u>
Demographic Submission	a <u>submission</u> regarding a <u>patient</u> 's demographic information
Disruption	an interruption of normal business operations or processes which can range from short term to longer term unavailability
Dose Condition	an indicator that a dose administered to a <u>patient</u> is considered substandard
Dose-Level Eligibility	a <u>patient</u> 's eligibility for a funding program as determined for each administered dose of <u>vaccine</u>
Dose-Level Public/Private Indicator	an indicator of the source of funding that paid for a <u>vaccine</u>
Electronic Data Exchange (EDE)	an interface in which data can be communicated electronically between an <u>IIS</u> and another system, such as an <u>electronic health</u> <u>record</u> system
Essential Business Function	a <u>business function</u> that supports an <u>IIS</u> program's key products and services and, when interrupted, has significant negative impact on the wellbeing of the public and <u>IIS</u> staff, <u>IIS</u> reputation, product or service quality, or ability to meet legal and regulatory requirements
Exercise	an instrument to train for, assess, practice, and improve performance and capabilities in a controlled environment
ExIS Order Date	the date an <u>order</u> for <u>vaccine</u> is entered into the <u>external</u> <u>information system</u>
Existing Record	a record that is already stored in an <u>IIS</u>

Term	Definition
Fund Type	a categorization within <u>dose-level public/private indicator</u> that further specifies the source of funding for the <u>vaccine</u> , and is often tied to a program or use indication
Geographic Jurisdiction	a physical area identified by a governing authority
HL7 (Health Level Seven International)	global authority on standards for interoperability of health information technology
Identical Records	duplicate records from the same data source which have exactly the same data values for each corresponding data element
IIS Data Quality	the degree to which data sent to or stored in an <u>immunization</u> <u>information system</u> meet current standards, support clinical decision-making needs, and are available to answer key public health questions with high confidence
IIS Direct User Interface	a software application that allows a <u>person</u> to enter data directly into or retrieve data directly from an <u>IIS</u>
IIS Patient ID	a unique identifier assigned to a <u>patient</u> by <u>IIS</u>
IIS Program	the staff and/or activities that focus primarily on maintaining and operating the <u>IIS</u> in support of <u>immunization program</u> activities
IIS Vaccination Event ID	a unique identifier assigned by an <u>IIS</u> to each <u>vaccination event</u>
IIS-AO Common Name	a familiar name by which an <u>IIS-AO</u> is known in the community
IIS-AO ID	a unique identifier assigned by an <u>IIS</u> to represent an <u>IIS-AO</u>
IIS-AO Legal Name	a name by which an <u>IIS-AO</u> is legally known
IIS-Authorized Organization (IIS-AO)	an <u>organization</u> that has an agreement with an <u>IIS</u> , that allows for the submittal and/or retrieval of <u>IIS</u> information
Immunization History	a collection of information detailing <u>vaccination events</u> for a <u>patient</u>

Term	Definition
Immunization Information System (IIS)	a confidential, population-based, computerized database for recording information, including vaccination history and <u>vaccine</u> doses given by participating health care <u>providers</u>
Immunization Program	a public health <u>organization</u> that coordinates public health activities related to immunization for a <u>geographic jurisdiction</u>
Incident	an event that might be, or could lead to, a <u>disruption</u> , loss, emergency or crisis
Incoming Record	a record that is received by the <u>IIS</u> from an <u>IIS-AO</u> and will be processed to determine if a matching record exists
Inventory	a collection of <u>inventory items</u>
Inventory Item	a collection of <u>vaccines</u> with the same <u>lot number</u> , <u>lot-level</u> <u>public/private indicator</u> , and <u>lot number expiration date</u>
Inventory Item Date/Time	the date and time the <u>balance</u> for an <u>inventory item</u> is changed
Inventory Item Status	the state of an <u>inventory item</u> , whether it is active, pending or inactive
Lot Number	an identifier assigned by a <u>manufacturer</u> to a specific batch of <u>vaccine product type</u>
Lot Number Expiration Date	the date after which the <u>vaccine</u> is no longer considered potent
Lot-Level Public/Private Indicator	the source of funds that paid for an $\underline{\text{inventory item}}$, assigned by the $\underline{\text{IIS}}$
Manufacturer	an <u>organization</u> that produces a <u>vaccine product type</u>
Matched Records	records which have been identified to be duplicate records (same <u>patient</u> or same <u>vaccination event</u>)
Maximum Tolerable Period of Disruption (MTPD)	the time it would take for adverse impacts, which might arise as a result of not providing a <u>business function</u> to become unacceptable
Medicaid Number	a unique identifier assigned to a <u>person</u> for the purposes of receiving medical services financed by Medicaid

Term	Definition
Medical Record Number	an identifier assigned to a <u>patient</u> by the <u>provider organization</u>
Mother's Maiden Name	the last name under which the <u>patient</u> 's mother was born
MVX Code	an identifier established and maintained by the <u>CDC</u> that describes a <u>manufacturer</u>
NDC	an identifier assigned to a <u>vaccine product type</u> identifying the manufacturer/labeler, product and presentation
New Record	a record that is either the result of a consolidation process or an <u>incoming record</u> that was not matched to an <u>existing record</u>
Order	a request for <u>vaccines</u> placed by a <u>provider organization</u>
Order ID	a unique identifier assigned to an <u>order</u> by the <u>IIS</u>
Order Line	an item of an <u>order</u> specifying the <u>vaccine product type</u> being ordered
Order Line Split Indicator	an indicator of whether an <u>order line</u> item quantity shipped is less than the quantity requested
Order Line Status	the state of an <u>order line</u> in process from an <u>order</u> approval to completion
Order Status	the state of an <u>order</u> in process from <u>submission</u> by a <u>provider</u> <u>organization</u> to completion of the <u>order</u>
Organization	a <u>party</u> that is a body of <u>people</u> with a particular purpose
Party	a <u>person</u> or <u>organization</u>
Patient	a <u>person</u> who is the actual or potential recipient of a <u>vaccine</u>
Patient Eligibility	an indication as to whether or not a <u>patient</u> may receive <u>vaccines</u> from a public health program funding program
Patient Ethnicity	ethnicity of the <u>patient</u>
Patient First Name	the <u>patient</u> 's first name
Patient Gender (Gender)	the <u>patient</u> 's <u>gender</u>

Term	Definition
Patient Last Name	the <u>patient</u> 's last name(s)
Patient Middle Name	the <u>patient</u> 's middle name(s)
Patient Name	a word or phrase that constitutes the distinctive designation of a <u>patient</u>
Patient Phone Number	the <u>patient</u> 's phone number
Patient Race	the <u>patient</u> 's race
Patient Record	a record of information for a <u>patient</u> including both <u>demographic</u> record and <u>vaccination event records</u> for that <u>patient</u>
Patient Status	an indicator of an <u>organization</u> 's accountability for a <u>patient</u> 's immunizations
Patient Status at Geographic Jurisdiction Level	a patient status with respect to an immunization program
Patient Status at Provider Organization Level	a patient status with respect to a provider organization
Person	a human being
Potential Essential Business Function	a <u>business function</u> that is potentially an <u>essential business</u> <u>function</u>
Probability	something (such as an event or circumstance) that is likely to occur
Provider (Provider Individual)	a <u>person</u> who is a medical professional or clinician who works for a <u>provider organization</u>
Provider Identifier	a unique identifier that labels and establishes the identify of a <u>provider</u>

Term	Definition
Provider Organization (PO)	 an <u>organization</u> that has any combination of the following characteristics: provides vaccination services responsible for an entity that provides vaccination services manages <u>inventory</u> for an entity that provides vaccination services
Provider Organization Profile	a representation of the characteristics associated with a <u>provider</u> <u>organization</u> and its <u>submissions</u> to an <u>IIS</u>
Provider Organization Type (PO Type/Sub- Type)	a classification system for <u>provider organizations</u> based on a combination of services provided and the <u>cohort</u> served
Public Health Entity	a governmental agency with public health oversight over a geographic jurisdiction and/or its population
Recommended Immunization Schedule	a collection of <u>antigen</u> series that specify various paths to achieve presumed immunity against respective diseases as defined by an <u>organization</u> (e.g., <u>Advisory Committee on Immunization Practices</u>)
Recommended Vaccination	the <u>vaccine</u> that is recommended based on a <u>patient</u> 's <u>immunization history</u> and in accordance with an immunization schedule
Recording Organization (Recorder)	an <u>IIS-AO</u> that records information for <u>submission</u> to an <u>IIS</u>
Recovery Point Objective (RPO)	the point prior to a <u>disruption</u> to which information used by a <u>business function</u> must be restored to minimize the loss of data resulting from the <u>disruption</u>
Recovery Time Objective (RTO)	the period of time following a <u>disruption</u> within which a <u>business</u> <u>function</u> must be resumed
Relocation	the transfer of people or activities to another physical location
Reminder/Recall Criteria	a set of conditions (filters) used to produce the list of R/R candidates

Term	Definition
Reminder/Recall Distributor	an <u>organization</u> that receives a <u>reminder/recall notification</u> from a <u>reminder/recall originator</u> and distributes it to the <u>patient</u> or <u>responsible party</u>
Reminder/Recall Frequency	a repetition rate for a <u>reminder/recall notification</u> during the R/R process
Reminder/Recall Notification	a <u>communication</u> indicating that a <u>patient</u> has one or more <u>recommended vaccinations</u> due or past due
Reminder/Recall Originator	the <u>organization</u> that is responsible for generating the <u>reminder/recall notification</u>
Reminder/Recall Outcome	the results associated with a r/r notification that may impact a patient's immunization status or <u>patient status</u>
Reminder/Recall Protocol	a set of rules and procedures used to guide the reminder/recall process
Reminder/Recall Recipient	the person to which the reminder/recall notification is addressed
Reminder/Recall Report	a report listing one or more <u>patients</u> with one or more <u>recommended vaccinations</u> due now or in the future
Reminder/Recall Response	a result associated with a <u>reminder/recall notification</u> that characterizes the <u>communication</u> process
Residence	a location where a <u>person</u> resides
Resource	the <u>people</u> , information and data, technology, buildings/worksites, <u>communication</u> systems, equipment, utilities that an <u>organization</u> has to have available to operate
Responsible for VFC Inventory	an indicator of whether or not a <u>provider organization</u> is <u>responsible for VFC inventory</u>
Responsible Party	a <u>person</u> responsible for a <u>patient</u>
Risk	effect of uncertainty on objectives
Risk Assessment	an overall process of <u>risk</u> identification, <u>risk</u> analysis and <u>risk</u> evaluation
Risk Mitigation	to implement measures so as to lower the exposure to <u>risk</u> and lower the <u>probability</u> or impact of a <u>risk</u>

Term	Definition
Selected Essential Business Function	a <u>business function</u> that is selected as an <u>essential business</u> <u>function</u>
Service Delivery	a method of delivering a service offered by <u>business function</u>
Shipment	the <u>vaccine doses</u> sent to a <u>provider organization</u>
Shipment ID	a unique identifier assigned to a <u>shipment</u>
Shipment Line	an item of a <u>shipment</u> specifying the <u>vaccine</u> being shipped
Shipment Status	the state of a <u>shipment</u> in process from shipping by originator to delivery to a <u>provider organization</u>
Shipment Type	an indication of where the <u>shipment</u> originated
Storage Model	the way <u>vaccines</u> are physically separated from each other in the <u>Provider Organization</u> 's <u>storage unit</u>
Storage Unit	a refrigerator or freezer used to store <u>vaccine</u>
Submission	a collection of information sent from an <u>IIS-AO</u> to an <u>IIS</u>
Submission Date	the date a <u>submission</u> is received by an <u>IIS</u>
Submission Date Loaded	the date a <u>submission</u> is loaded into an <u>IIS</u>
Submission Error	is the type of error that occurred in the receipt and attempted acceptance of a <u>submission</u>
Submission Status	the state of a <u>submission</u> upon <u>submission</u> to an <u>IIS</u>
Submitting Organization (Submitter)	an $\underline{\text{IIS-AO}}$ that submits information to an $\underline{\text{IIS}}$ or to an intermediary submitter with an $\underline{\text{IIS}}$ as the destination
Testing	a procedure for evaluation; a means of determining the presence, quality, or veracity of something
Threat	a potential cause of an unwanted <u>incident</u> , which may result in harm to individuals, a system or <u>organization</u> , the environment or the community
Threat Assessment	an evaluation and description of the type, scope and nature of events or actions that can result in adverse consequences to an <u>organization</u> or specific assets
Time Frame	a period of time especially with respect to some action or project

Term	Definition
Trade Name	the <u>manufacturer</u> 's proprietary name for a <u>vaccine type</u>
Vaccinating Organization (Vaccinator)	an <u>IIS-AO</u> that vaccinates a <u>patient</u>
Vaccination Encounter	an opportunity for one or more <u>vaccination events</u> to occur
Vaccination Encounter Date	the date of a <u>vaccination encounter</u>
Vaccination Encounter Type	a kind of <u>vaccination encounter</u>
Vaccination Event	a medical occurrence of administering one <u>vaccine</u> to a <u>patient</u>
Vaccination Event Data Element	a part of a <u>vaccination event record</u>
Vaccination Event Data Group	a logical grouping of <u>vaccination event data elements</u>
Vaccination Event Date	the date of the <u>vaccination event</u>
Vaccination Event Dosage	the measurement of how much <u>vaccine</u> was administered during a <u>vaccination event</u>
Vaccination Event Record	a collection of related <u>vaccination event data elements</u> pertaining to a <u>vaccination event</u>
Vaccination Event Submission	a <u>submission</u> regarding a <u>vaccination event</u> (s)
Vaccination Forecast	the result of applying rules to determine dates for the next vaccine (s) to be administered to a patient
Vaccine (Vaccine Dose)	a dose of substance administered during a <u>vaccination event</u>
Vaccine Ordering System	an application that supports <u>vaccine</u> ordering functions
Vaccine Product License Begin Date	the date a product license began

Term	Definition
Vaccine Product License End Date	the date a product license ended
Vaccine Product Type	a classification that describes the <u>manufacturer</u> , and presentation of a <u>vaccine type</u>
Vaccine Program	a part of an <u>immunization program</u> that focuses on ensuring vaccinations are available to the population
Vaccine Route of Administration	the method of administration for a <u>vaccine</u>
Vaccine Site of Administration	the anatomical location where a <u>vaccine</u> is administered
Vaccine Type	a classification of $\underline{\text{vaccines}}$ that describes the disease to which it provides immunity
VFC Program	a federally funded program that provides <u>vaccines</u> at no cost to children who might not otherwise be vaccinated because of inability to pay
