CDC Updates

Lynn Gibbs-Scharf, MPH, Branch Chief NCIRD/ISD/IISSB

AIRA Members & Partners Meeting
9-16-19

Upcoming Opportunities

- **Procurement Workshop**
  - **What:** training and discussion on procurement topics such as building a procurement team, developing requirements, completing a solicitation, and management
  - **Who:** awardee staff preparing for or in the early stages of a new IIS-related procurement
  - **When:** October 29-30
  - **How:** email IISinfo@cdc.gov with a list of individuals who would like to attend and a brief description of your procurement

IIS Dashboard Enhancements

- Functional standards are highlighted on the individual awardee progress reports to improve readability.
- The date generated appears at the bottom of each report.
- Error messages associated with the query parameters page appear near where the error must be addressed rather than at the bottom of the page

Please send feedback and suggestions for improvement to your assigned IIS consultant or the IISSB mailbox (IISInfo@cdc.gov)

SMaRT AFIX

CDC-funded implementation and maintenance support end in FY 20. Awardees need to plan accordingly.

- Any awardee that has implemented and is currently using SMaRT AFIX to generate provider-level coverage reports should incorporate maintenance costs into their IIS budget beginning October 1, 2020
- Any awardee implementing SMaRT AFIX with help from J Michael Consulting must complete activities to implement in their production environment prior to September 4, 2020, and incorporate maintenance costs into the IIS budget beginning October 1, 2020

SMaRT AFIX (continued)

- Awardees with NO ability to generate provider-level coverage reports
  - iWeb--should consider implementing SmaRT AFIX
  - Non-iWeb—next steps vary based on implementation timeline. However, it is unlikely that new implementations would benefit from cost savings prior to the end of the maintenance contract.
- Awardees with ability to generate provider-level coverage reports
  - No action needed

All Awardee Meeting

- January 28-30, 2020
- IIS managers are encouraged to attend with their program manager

Questions?

For more information, contact CDC
