Facebook and Instagram - Several of our staff gave presentations at the National Immunization Conference May 15-17 in Atlanta. One presentation discussed our response to the 2017 measles outbreak. The other presentation was part of a panel sharing how we use our statewide immunization information system to improve immunization rates. #2018NIC

Facebook - Congrats to our Minnesota Immunization Information Connection (MIIC) program for receiving the Centers of Excellence Award and Advancing IIS Award from @AIRA_ImmReg! MIIC is an electronic system that stores immunization records and provides tools to help ensure Minnesotans get the right vaccines at the right time. These awards recognize the innovative work our staff are doing with local and national partners to improve immunization activities across the state. <https://www.immregistries.org/aira-sponsored-awards-honors>

[Facebook](#) – Health information technology can make our lives easier and help keep us healthy! One example: Our immunization information system, called the Minnesota Immunization Information Connection (MIIC), combines a person’s immunizations into a single record, even if they were given by different health care providers in the state. This helps make sure you and your loved ones get the right vaccines at the right time. Learn how you can request your or your child’s immunization record from us.

[Facebook \(\\$50 promote\)](#) - Measles has been in the news a lot lately. Measles outbreaks are occurring in other states and around the world. Now is the time to make sure you and your child are up to date on measles vaccine. If you’re not sure, talk to your health care provider or request your MIIC immunization record from us. <https://www.health.state.mn.us/people/immunize/miic/records.html> #ivax2protect

[Facebook](#), [Instagram](#), [LinkedIn](#) - The Minnesota Immunization Information Connection (MIIC) just reached 100 million immunizations! MIIC is an electronic system that stores immunization records and helps make sure Minnesotans get the right vaccines at the right times. With high data quality and useful tools to support health care providers, we are proud to have one of the most advanced immunization information systems in the country. Congratulations to our MIIC program on this exciting milestone!
