AART User Group Mini-Series

May 27, 2020

4:00 PM ET

Agenda

- Welcome
- Goals of the AART Mini-Series
- HL7 Assessment
 - How it is being used by the community
 - In-depth question and answer

Goals

1) Increase the use of AART to:

- ✓ identify areas for improvement,
- ✓ prioritize IIS enhancements,
- ✓ test new IIS functionality,
- ✓ and reflect on accomplishments.

2) Support your use of AART by convening a group of engaged users to share and learn from one another

So What is AART?

AART is... the Aggregate Analysis Reporting Tool

AART was developed to visualize and compile the testing results and information on **prioritized** community-driven measures and tests related to Functional Standards

Did you know...

1. AART has been testing with IIS since 2015
2. There are over 6 million test cases in AART
3. You can view test results for your peer IIS at the content area level, and at the test case level

Measurement and Improvement Initiative – What Is it?

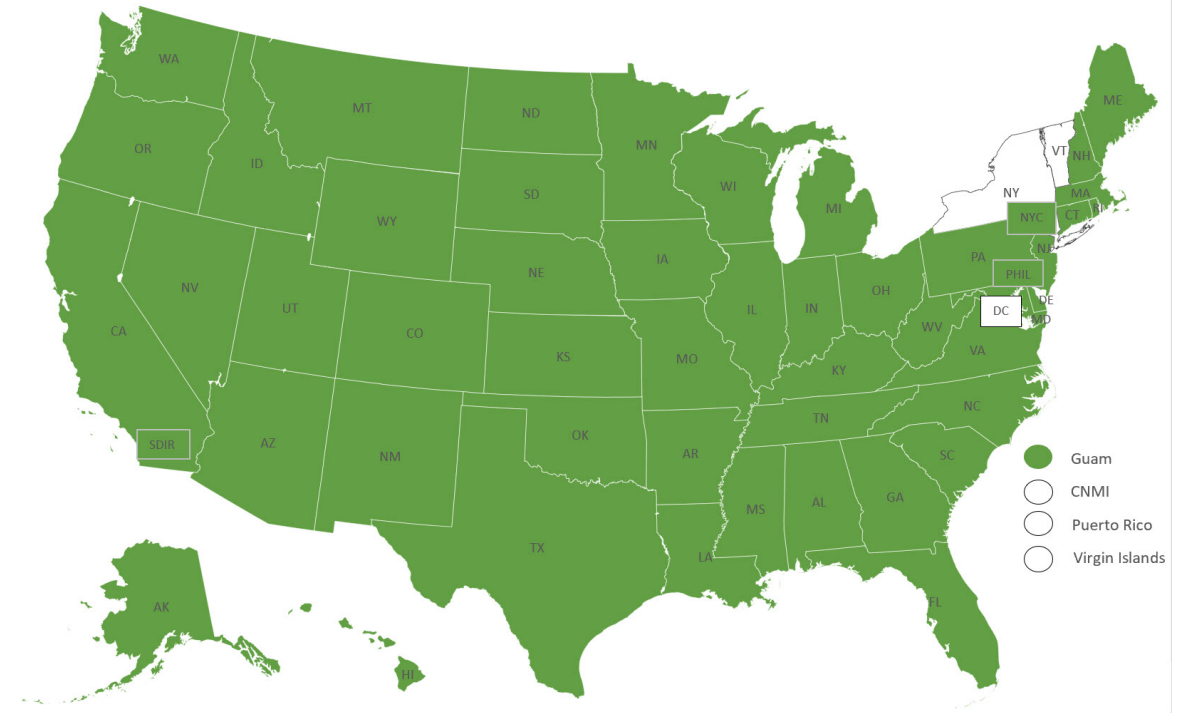

- The IIS Measurement and Improvement (M&I) Initiative began in 2015 as an effort to:
 - Test IIS alignment with standards
 - Provide IIS with information and assistance to improve

Thank You For Engaging With Us!

- Participation is strong and results are being reviewed and acted upon
- Partners are publicly recognizing improvements in standardization across IIS
- We are seeing progress in all areas of quarterly measurement

AART Clinics

- Once a year, in-person, @ AIRA National Meeting
 - National Meeting postponed until 2021
 - Working to schedule virtual meetings
- Virtually, via online meeting tools
- Request a clinic or follow up clinic anytime!

Announcements and Welcome!

Welcome to the new AART dashboard! A brief summary video of recent changes to AART can be found [here](#). Click [here](#) for more details. The dashboard below allows you to quickly navigate to the results for each of the stages of Measurement. Hover over text to see links to results below.
