INFORMATION REQUEST

Topic: Electronic IIS and VFC Enrollment Process

Request Date: May 14, 2020

Information Requested:

NYC would like to know if other jurisdictions have an electronic VFC enrollment process OR a dual electronic IIS and VFC enrollment process. If your jurisdiction does have an electronic enrollment process and would be open to providing a demonstration of your system, please email Georgia Elysee at gelysee@health.nyc.gov.

Requesting Member: Georgia Elysee (NYC)

Responding Member(s): Kimbra Nemmers (KS), Beatrice Salada (MI), Kim Salisbury-Keith (RI), Melanie Malinowski (WI)

Results:

KS:

Kansas does have an electronic VFC enrollment in the KSWebIZ system. We are currently working with the vendor to enhance the features.

MI:

Michigan's IIS has a VFC electronic enrollment process that we would be happy to provide a demo for NYC. MCIR does not have an IIS electronic enrollment process but is certainly in the plans for development in the future. Please contact [Maria McGinnis](#), our VFC Program Coordinator and [Bea Salada](#), MCIR Coordinator for the demo.

RI:

Rhode Island has an on-line VFC and State Supplied Vaccine enrollment process and would be happy to demonstrate it.

WI:

Wisconsin does offer an electronic enrollment and annual re-enrollment for VFC providers. We do not have an electronic registration for general use of WIR at this time.
