INFORMATION REQUEST

Topic: Insurance HL7 Segments

Request Date: July 25, 2022

Information Requested:

Envision has been asked by a jurisdiction about supporting the Insurance HL7 segments and would like any information jurisdictions are willing to share:

- Which jurisdictions, if any, are using the IN1 – IN3 segments?
- How have they supported the IN1 segment, and managed the specific fields IN1-2 Insurance Plan ID and IN1-3 Insurance Company ID?
- What values are received in these fields?
- Can we see some examples of the IN1 segment in use?

Requesting Member: Ann Berlin

Responding Member(s): Tania Castilhos (MI), Alejandro Alvarado Ortiz (PR), Jon Reid (UT)

Results:

Note: AIRA recognizes that our members and partners often create solutions or provide services that our members and partners may be interested in. We invite entities to join AIRA with the understanding that AIRA must maintain a neutral stance with regards to promoting specific products and services. AIRA does not endorse or imply any endorsement of any member or partner or their products and/or services.

MI:

From the HL7 spec guide, Michigan ignores these submissions for IN1-IN3. MCIR does not capture insurance data.

[{IN1 Insurance ignored

[IN2] Insurance Additional Information ignored

[IN3] Insurance Additional Information-Cert ignored

INFORMATION REQUEST

PR:

Puerto Rico is currently we are not capturing this segment in HL-7 message transmissions. Health insurance information is only registered with direct data entry at the IIS.

UT:

Utah doesn't process or use the IN segments. The only field we would use that would be insurance related is the financial class code. I don't have a use case where we would want or be authorized to collect insurance data at the state level or want to share that information with other providers.
