# LEVERAGING IIS EDUCATION THROUGH THE LEARNING MANAGEMENT SYSTEM

**TAMI JOHNSON**  
IMMUNIZATION ASSESSMENT  
AND PROMOTION DIRECTOR

May 2023

## OUR MISSION:

To promote, protect, and improve the health and safety of all Hoosiers.

## OUR VISION:

Every Hoosier reaches optimal health regardless of where they live, learn, work, or play.

# LMS INvest

## Indiana's LMS: INvest!

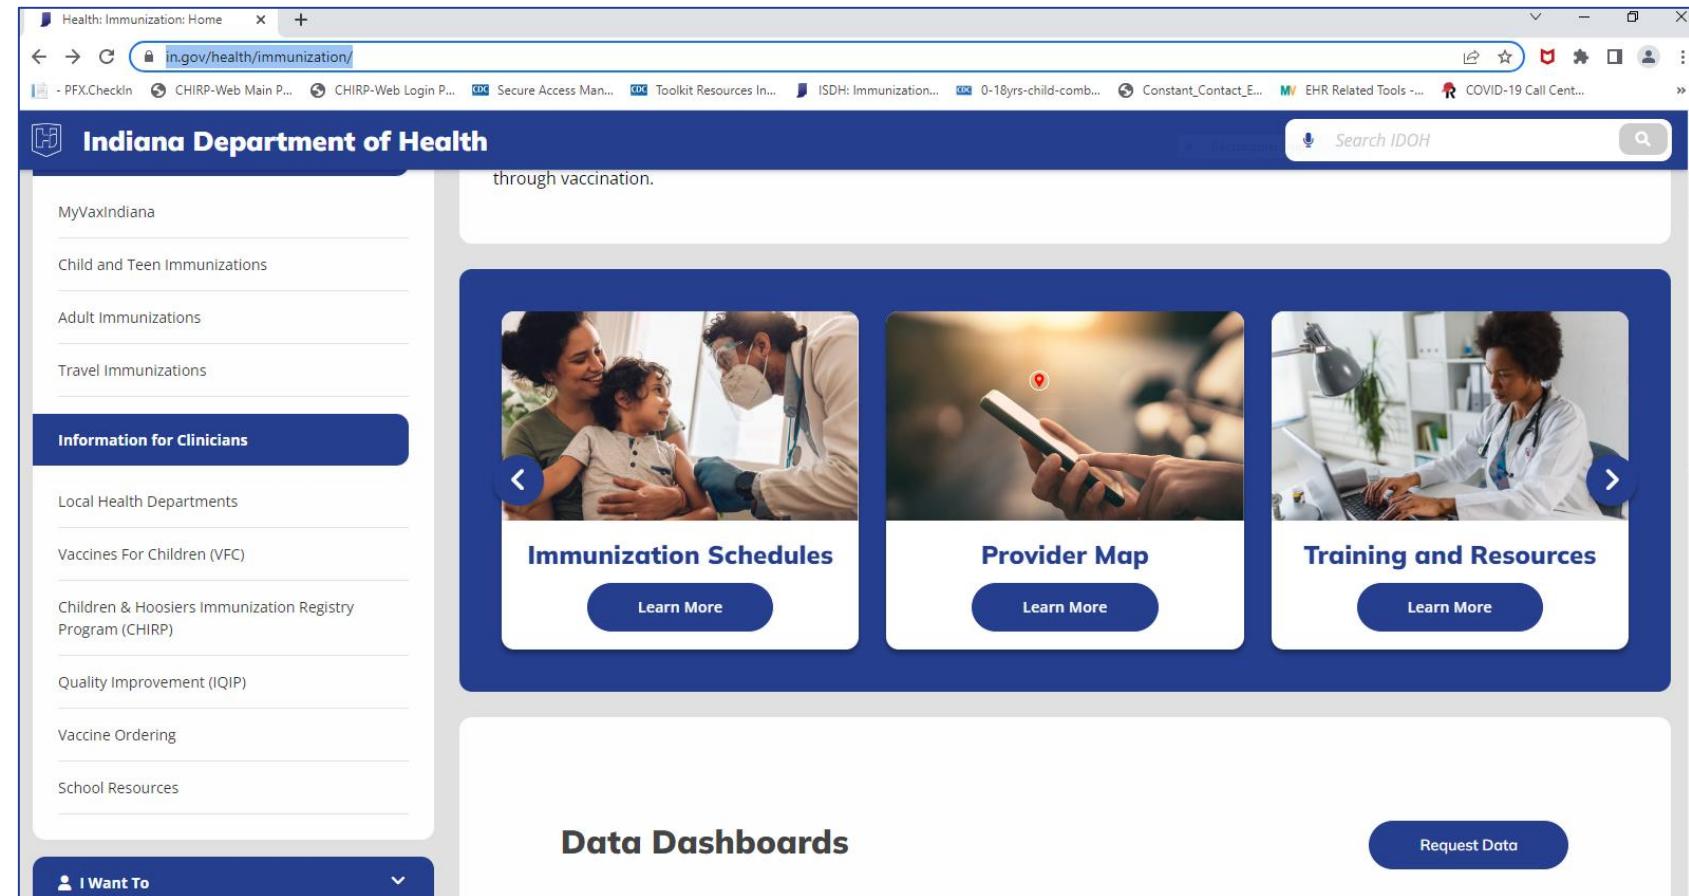

**Indiana**  
Department  
of  
**Health**

# Background: Stages of training deployment

# Indiana Department of Health site advantages

- Accessibility/ flexibility
- Centralized resources
- Embedded IDOH links
- Internal administration

# Why use an LMS?

- Vaccines for Children program is highly complex and continually evolving
- Standardized messaging
- Consistent, high-quality training by subject matter experts
- Adults learn very differently than children. Adult learners:
  - Guide own development
  - Thrive on goal setting
  - Require ownership

# We wanted to offer more support to our providers

---

A Learning management system (LMS) helped us focus our training goals on patient immunization outcomes.

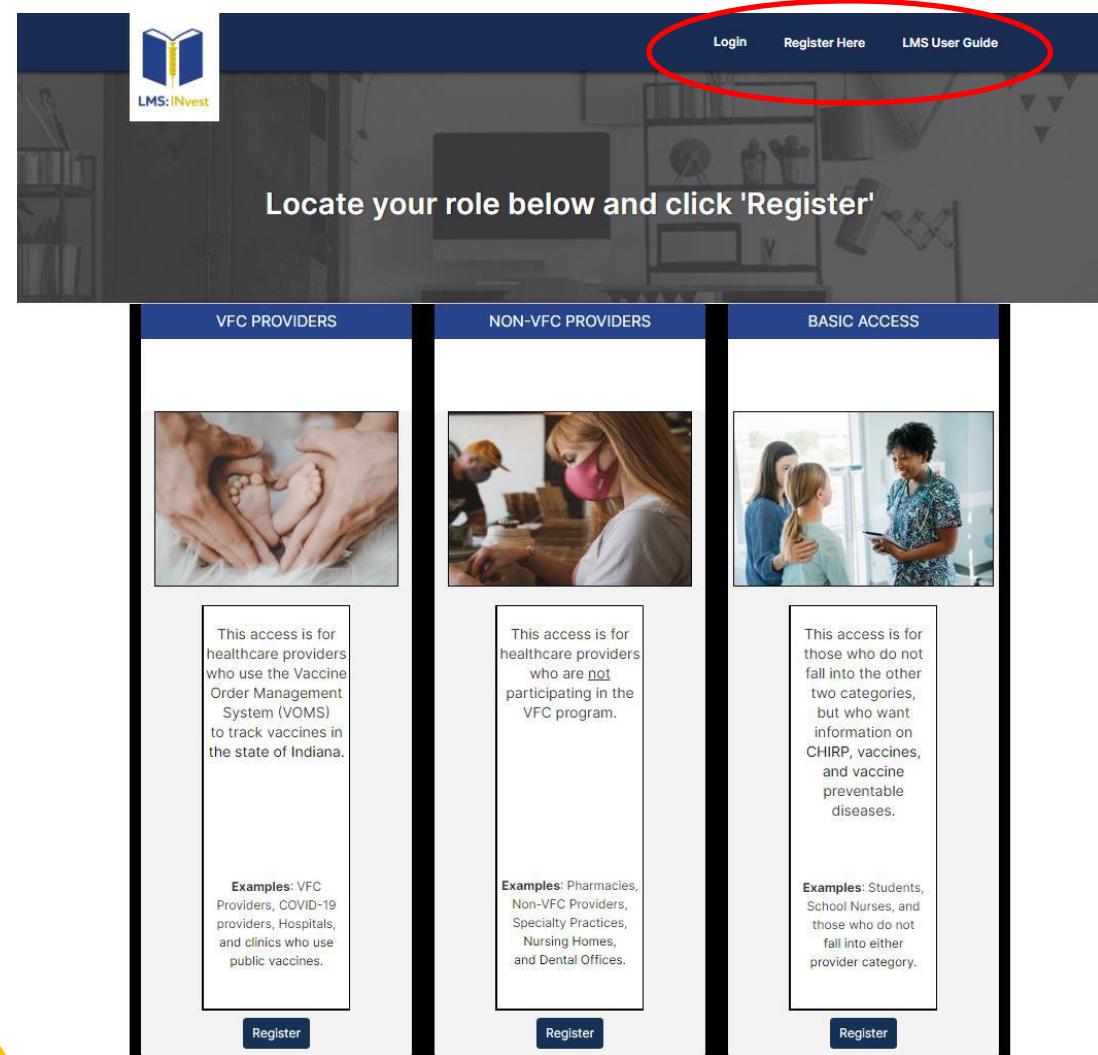

# LMS: INvest highlights

- Interactive modules
- Full courses:
  - FREE CME/CNE credits
  - Latest C-19 vaccine information
- References and resources tabs
- Widgets with badges and certificates
- Track progress
- Compete with your colleagues for the highest score!

The screenshot shows the LMS: INvest dashboard for a user named Haley Smiley, with 64,600 points. The dashboard features a 'Welcome back, Haley' message and a 'Leaderboard' section showing top users. It includes widgets for 'Badges', 'Certificates', 'Checklists', and 'Course Progress'. The 'Course Progress' section is for the course 'You Call the Shots - Indiana', which is assigned and has 0% progress. The 'Checklist' section shows a checklist for 'CME Credit For Immunizations from A to Z'.

# LMS navigation

- Sign-up with the “register here” button
- Current CHIRP users must register and create an account
- VFC, non-VFC, basic user access
- User guide available
- Questions? Need more details?  
[The LMS User Guide](#)

The screenshot shows the LMS:INvest registration interface. At the top, there is a navigation bar with 'Login', 'Register Here', and 'LMS User Guide'. A red circle highlights the 'Register Here' button. Below the navigation bar, a banner says 'Locate your role below and click 'Register''. There are three main categories: 'VFC PROVIDERS' (showing a baby being held), 'NON-VFC PROVIDERS' (showing a healthcare provider in a mask), and 'BASIC ACCESS' (showing three people in a office setting). Each category has a description and a 'Register' button.

VFC PROVIDERS	NON-VFC PROVIDERS	BASIC ACCESS
		
This access is for healthcare providers who use the Vaccine Order Management System (VOMS) to track vaccines in the state of Indiana.  Examples: VFC Providers, COVID-19 providers, Hospitals, and clinics who use public vaccines.  <a href="#">Register</a>	This access is for healthcare providers who are <u>not</u> participating in the VFC program.  Examples: Pharmacies, Non-VFC Providers, Specialty Practices, Nursing Homes, and Dental Offices.  <a href="#">Register</a>	This access is for those who do not fall into the other two categories, but who want information on CHIRP, vaccines, and vaccine preventable diseases.  Examples: Students, School Nurses, and those who do not fall into either provider category.  <a href="#">Register</a>

# LMS: INvest library catalog

## Required

- VFC Provider Annual Training
- You Call the Shots
- Invalid Doses and Combination Vaccines

## Highly Recommended

- School Nurse
- Storage and Handling
- VOMS 2.0 Video Training Series

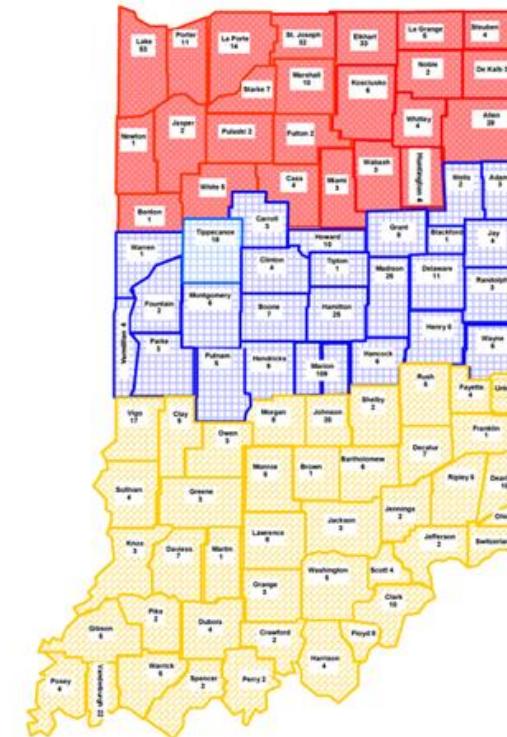

# Modules with CME/CNE credits

## Immunizations from A to Z

- 1. Principles of Vaccinations
- 2. General Recommendations
- 3. VPD Parts 1 and 2
- 4. Vaccine Storage and Handling
- 5. Timing and Contraindications
- 6. Vaccine Administration
- 7. Talking with Parents
- 8. COVID-19

# Methods

- Needs assessment
- Customize learner compliance
- Interactive quizzes throughout
- Main quiz at the end to track progress
- User must click throughout to get full credit
- Short survey at the end to confirm completion

# Validation of the new LMS platform

The following questions were used to evaluate our needs for a new platform and content:

- Does it track unique users?
- Is it complicated to navigate?
- What interactivity is available?
- Can the navigation be customized?
- Are there grammatical errors in new content?
- Do the quizzes properly evaluate the content?
- Are the certificates/badges automated?
- What reporting is available for the course/user?
- How is learner feedback collected?

# Results

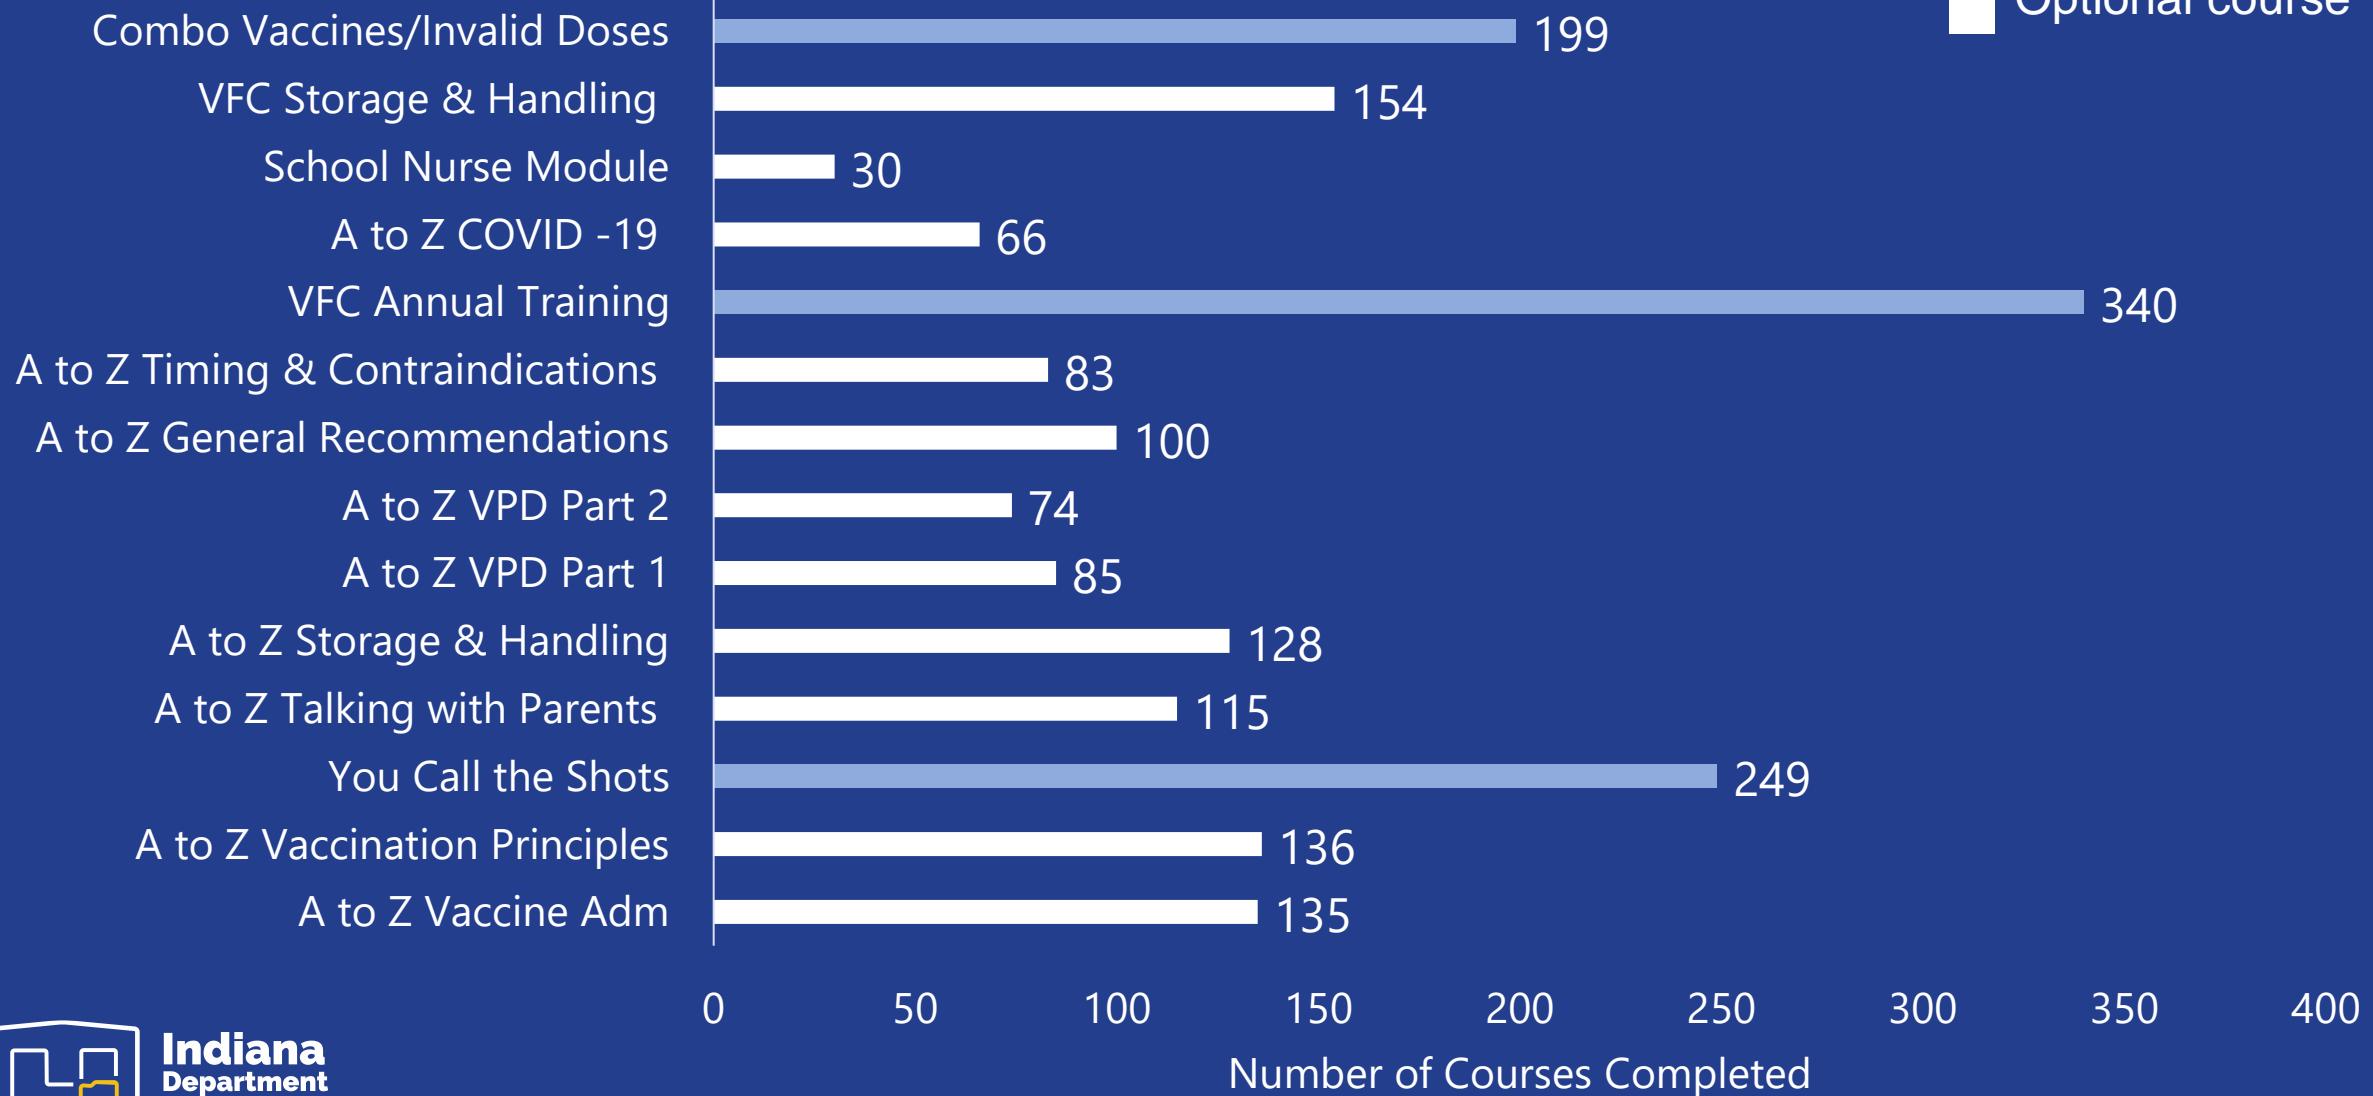

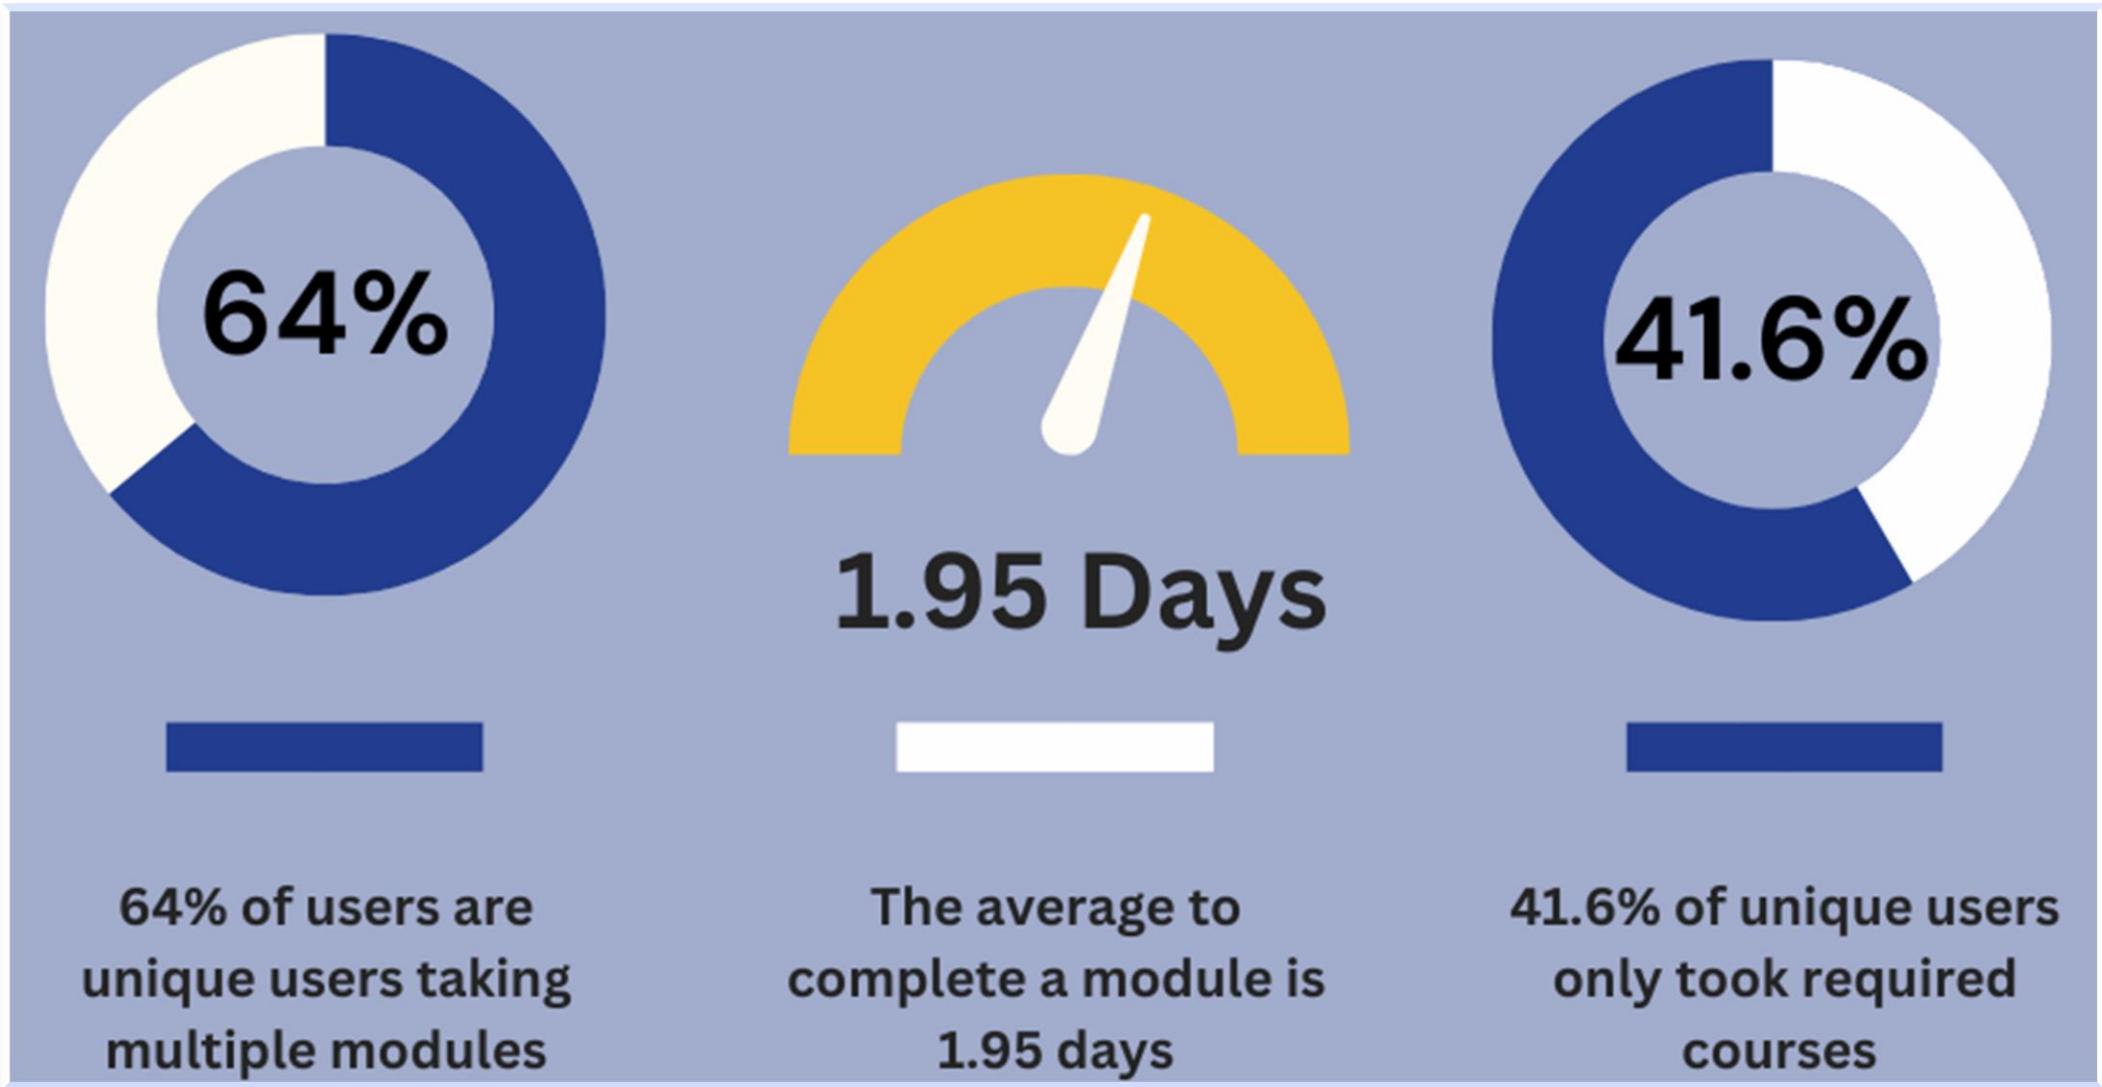

Indiana  
Department  
of  
Health

# Modules completed per month (unique users)

# Completed courses results

# Challenges for Indiana

---

- Keeping all the modules and courses in line with ACIP recommendations
- Changes to policies for VFC
- Reference guides must be kept up to date
- Reaching school nurses
- Bandwidth to develop new content
- Limitations on feedback for modules not completed
- Not everyone learns well virtually
- Some material is hard to teach and learn online (hard to get through logic and concepts)

# • Conclusions and next steps

---

## Conclusions

- Increase productivity
- Empower providers
- Continuous learning
- Providers self sufficient more personalized
- IZ staff focus on improvement
- Training variety

## Next Steps

- New trainings-possible before access to CHIRP
- Marketing usage
- Increase functionality – directly connect IIS to LMS with user ID to track performance
- School nurse
- New! Media tracking on reference/resources
